INTRODUCTION

St. Petroc Premier School is a Christian boarding school offering the 8-4-4 Curriculum. We have strong commitment to academic excellence and a high level of discipline. Children are accepted from those joining play group all through to class 8.

St. Petroc Premier School is not just an academic school; there is a strong emphasis on the moral and spiritual development of the child. Every day begins with a devotion time either within a tutor group or in a collective school assembly. Every pupil follows a course in Christian Religious Education and is encouraged to follow the principles that God has laid down for us.

VISION

To be a leading centre of Excellence in Kenya and the East African Community.

MISSION

To develop an all-round learner with a strong CHARACTER, a positive ATTITUDE for EXCELLENCE. This we do by combining sound intellectual, spiritual, social and moral physical growth grounded in a firm Christian Foundation.

CORE VALUES

- ❖ Building strength out of the diversity of our staff and pupils by creating relationships based on Christian Foundation as enshrined in the school motto, **to fear God is wisdom.**
- ❖ Creating a school culture that promote **honesty and integrity.**
- ❖ Creating a **conducive learning environment** rich in compassion, love, care and respect for each other irrespective of relation, race, nationality or gender.
- ❖ Providing opportunity for every pupil to learn skills necessary to achieve **personal excellence.**
- ❖ **Producing life long learners** who are independent thinkers, level-headed leaders, confident and good communicator, open-minded, balanced in thought, reflective, risk takers and democratic.
- ❖ Stimulating interest in, and **care for the environments.**
- ❖ Maintaining **regular and open communication** with parents.

CORE SUBJECTS

English language, which is also the medium of instruction; Kiswahili – the national language; Mathematics; Science; Social Studies and Christian Religion Education

FOUNDATION SUBJECTS

Drama, Music, Physical Education/Swimming, Information Technology, French and Chinese.

CO-CURRICULAR ACTIVITIES

Poetry Competition, Science Fair, Mathematics and Science Challenge, Humanities Week and Musicals, Scouting, The School Band, Skating, Shotokan, Musical Orals, Drama, Dance, Swimming, Games (Football, Basketball, Badminton, Lawn Tennis).

PASTORAL PROGRAM

Daily Devotions, School Assemblies, Prayer Week and Chaplaincy.

COMPUTING/ICT

Enhance children's learning throughout the curriculum. Key ICT skills enable them to fully use technology in all aspects of their learning. They have experience of control, word processing, problem solving, communicating, finding information and data handling. We are extremely well resourced at SPS with an exciting new ICT lab, access to ipads, specialist ICT teacher who 'team teaches' with our class teachers from nursery through to class 8.

SPORTS

During their school life children will be taught a variety of physical activities such as games, gymnastic activities, athletics, dance and swimming. Physical education develops children's physical skills and broadens qualities such as self confidence, self-worth and respect for one another. The school is involved with the Sports Development programme, which has enabled us to develop volleyball, basketball, dodge ball, table foot ball, Lawn Tennis, Swimming and other indoor games.

LIFE SKILLS

This is a two hours program on Saturdays and Sundays which includes: cookery, gardening, personal hygiene; ironing, polishing of shoes, making of Beds etc. At SPS everyone is expected to listen and respect the thoughts and beliefs of others. They are encouraged to develop a sense of morality and know the difference between right and wrong.

LIBRARY

Our well-stocked library offers a wide range of fiction and non-fiction books, daily newspapers, periodicals, current journals, educational reports and audio visual aids. Reading and research are key elements that St Petroc fosters in developing an inquiring mind in our students.

SICKBAY

At St Petroc, the health of your child comes first. We have a well trained nurse on site on a daily basis. The school emphasizes more on the parents specifying the hospital they would wish their child be taken in case he/she falls sick. If the information is not provided we act accordingly to ensure the child is taken to hospital and the best treatment is administered to them.
